Please note that these policies are available on the school's website www.glenridge.org on the home page, right side, under information.

5530 Substance Abuse

The Board of Education recognizes that a pupil's abuse of harmful substances seriously impedes that pupil's education and threatens the welfare of the entire school community. The Board is committed to the prevention of substance abuse and the rehabilitation of substance abusers by educational means, but will take the necessary and appropriate steps to protect the school community from harm and from exposure to harmful substances. Accordingly, the Board will establish and maintain a comprehensive substance abuse intervention, prevention, and treatment referral program in the schools of this district.

The Board believes the best discipline is self-imposed, and it is the responsibility of school district staff to use disciplinary situations as opportunities to help pupils learn to assume and accept responsibility for their behavior and the consequences of their behavior. Staff members who interact with pupils shall apply the best practices designed to prevent discipline problems and encourage pupils' abilities to grow in self-discipline. Discipline will be graded to the severity of the offenses, the nature of the problems and the pupil's needs. Discipline may include suspension or expulsion. The Board may establish consequences for a pupil not following through on the recommendations of an evaluation for alcohol or other drug abuse and related behaviors. The Superintendent and/or designee will notify the appropriate law enforcement agency pursuant to N.J.A.C. 6A:16-6.3(a).

An immediate medical examination shall be conducted and a written report of the medical evaluation shall be furnished to the parent(s) or legal guardian(s) of the pupil, the Building Principal, and the Superintendent in accordance with N.J.A.C. 6A:16-4.3(a)2 - 4.3(a)8.

If the written report of the medical evaluation verifies that alcohol or other drugs do not interfere with the pupil's physical or mental ability to perform in school, the pupil shall be immediately returned to school. If there is a positive determination from the medical examination indicating the pupil's alcohol or other drug use interferes with his or her physical or mental ability to perform in school, the pupil shall be returned to the care of the parent(s) or legal guardian(s) as soon as possible and attendance at school shall not resume until a written report verifies the pupil's alcohol or other drugs use no longer interferes with his or her physical and mental ability to perform in school.

REMOVAL OF A PUPIL WITH A DISABILITY shall be in accordance with N.J.A.C. 6A:14. While a pupil is at home because of the medical evaluation or after the pupil returns to school, an appropriately certified school staff member(s) will conduct an alcohol and other drug assessment of the pupil and a reasonable investigation of the situation and may initiate referral alcohol or other drug abuse treatment in accordance with N.J.A.C. 6A:16-4.3(a)12, 4.3(a)13, and 4.3(a)14.

The Building Principal or designee upon receiving such report shall immediately notify the parent(s) or legal guardian(s) and Superintendent and shall arrange for an examination of the pupil as soon as possible to determine whether the pupil has been using anabolic steroids in accordance with N.J.A.C. 6A:16-4.3(b)2.

the information would cause a person to reasonably suspect that the elementary or secondary pupil or another child may be an abused or neglected child.

NONPUBLIC SCHOOL PUPILS N.J.S.A. 18A:40A-5; 18A:40A-17c – The Board will lend to pupils attending nonpublic schools located in this district and to the parent(s) or legal guardian(s) of such pupils educational materials on substance abuse prepared and supplied by the Commissioner. The Superintendent will not report pupils who have voluntarily sought treatment or counseling for a substance abuse problem provided the pupil is not involved or implicated in a current drug distribution activity.

The Superintendent or designee may, but need not disclose to law enforcement authorities the identify of a pupil suspected to be under the influence of alcohol and/or controlled dangerous substances, pursuant to N.J.A.C. 6A:16-4.3(a), or a pupil suspected to have used or who may be using anabolic steroids, pursuant to N.J.A.C. 6A:16-4.3(b), and who is referred for a medical evaluation, pursuant to N.J.A.C. 6A:16-4.3(a) or (b), as appropriate, for the purposes of providing appropriate health care

for the pupil and for determining whether the pupil is under the influence of alcohol or other drugs or has been using anabolic steroids, provided the pupil is not reasonably believed to be in possession of a controlled dangerous substance or drug paraphernalia, and is not reasonably believed to be involved or implicated in drug distribution activities.

While we make every attempt to enforce our rules and procedures evenly, we are well aware that all infractions are not always officially brought to our attention.

We can only act on information we can verify. Thank you for your understanding in this area.

C. Identification and Remediation of Pupils Involved with Substances.

1. Teaching staff members shall be alert to the signs of a pupil's involvement with substances, in accordance with the training offered in in-service training sessions.
2. A teaching staff member who suspects that a pupil is involved with substances, but not under the influence of them, should refer the pupil to the School Nurse, the Substance Awareness Coordinator, a Guidance Counselor, the Child Study Team, or another professional staff member or trained resource person, as appropriate. The staff member shall notify the Principal of the referral; if appropriate, the Principal should notify the pupil's parent(s) or legal guardian(s) of the referral and discuss with the parent(s) or legal guardian(s) the possibility of medical or therapeutic treatment.
3. When a pupil involved with substances has discussed his/her involvement with a teaching staff member with an expectation of confidentiality, the staff member may respect that confidence. The teaching staff member should encourage the pupil to seek aid from a professional trained in counseling and to confide in his/her parent(s) or legal guardian(s). When the staff member believes that the pupil requires professional counseling or intervention that the pupil will not seek on his/her own, the staff member may report the pupil to the Principal, who shall determine whether to notify the pupil's parent(s) or legal guardian(s) and may report the pupil to an appropriate district professional or trained resource person or to an appropriate agency for evaluation and possible treatment.

D. Reporting and Examination of Pupils Under the Influence of Anabolic Steroids

1. Whenever any teaching staff member, certified or non-certified nurse or other educational personnel have reason to believe that a pupil has used or may be using anabolic steroids that person must report the matter as soon as possible to the Principal (or, in the Principal's absence, to a person designated by the Principal) and either the certified or non-certified school nurse or the school physician or to the Student Assistance Coordinator.
2. The Principal or his/her designee, in response to every report, shall immediately notify the pupil's parent(s) or legal guardian(s) and the Superintendent.

3. The Principal shall arrange for the immediate examination of the pupil by a physician licensed to practice medicine or osteopathy selected by the parent(s) or legal guardian(s). If the physician selected by the parent is not available to perform the examination, the examination will be conducted by the school physician or another physician identified by the Principal. An examination conducted, at parental request, by a physician other than the school physician or another physician identified by the Principal shall not be at the district's expense.
4. The pupil shall be examined as soon as possible for the purpose of determining whether the pupil has been using anabolic steroids.
5. The Superintendent or designee may, but need not, disclose to law enforcement authorities the identity of a pupil suspected or have used or who may be using anabolic steroids. The Superintendent shall disclose to law enforcement authorities the identity of a pupil reasonably believed to be in possession of anabolic steroids or related paraphernalia or a pupil reasonably believed to be involved or implicated in distribution activities involving anabolic steroids.
6. A written report of the examination of the pupil shall be furnished by the examining physician to the pupil's parent(s) or legal guardian(s), the Principal, and to the Superintendent.
7. If it is determined that the pupil has used anabolic steroids, an individual who holds the Educational Services Certificate with the substance awareness coordinator endorsement issued by the New Jersey State Board of Examiners or an individual who holds either the school nurse, school nurse/non-instructional, school psychologist, school counselor, school social worker or student personnel services endorsement on the Educational Services Certificate and is trained to assess alcohol and other drug abuse shall interview the pupil and others, as necessary, for the purpose of determining the extent of the pupil's involvement with and use of anabolic steroids and the possible need for referral for treatment. To make this determination, the school staff member(s) identified above may conduct a reasonable investigation, which may include interviews with the pupil's teachers and parents and consultation with experts in pupil alcohol or other drug abuse as may be appropriate and necessary.
8. If the results of a referral for evaluation have positively determined that the pupil's use of anabolic steroids represents a danger to the pupil's health and well-being, the school staff member(s) identified in 7. above shall initiate a referral for treatment to appropriate community agencies as defined in N.J.A.C. 6A:16-4.1(b), to out-of-State agencies licensed by the appropriate State regulatory agency

for alcohol and other drug services, or to private practitioners certified by appropriate drug and alcohol licensing board.

E. Evaluation and Treatment of Pupils Under the Influence of a Substance Other Than Anabolic Steroids

1. Any educational staff member or other professional to whom it appears that a pupil may be currently under the influence of alcohol or other drugs on school grounds, including on a school bus or at a school-sponsored function, shall report the matter as soon as possible to the Principal and either the certified school nurse, non-certified school nurse, the school physician, or the substance awareness coordinator pursuant to N.J.S.A. 18A:40A-12. In the absence of the Principal, his or her designee shall be notified. In instances where the Principal and either the certified school nurse, non-certified school nurse, school physician or the substance awareness coordinator are not in attendance, the staff member responsible for the school function shall be immediately notified. The referring staff member shall complete the Violence, Vandalism and Substance Abuse Incident Report, according to N.J.S.A. 18A:17-46 and N.J.A.C. 6A:16-5.3.
2. The Principal or designee, in response to every report, shall immediately notify the pupil's parent(s) or legal guardian(s) and the Superintendent and/or designee.
3. The Superintendent or designee may, but need not, disclose to law enforcement authorities the identity of a pupil suspected to be under the influence of alcohol or other drugs. The Superintendent shall disclose to law enforcement authorities the identity of a pupil reasonably believed to be in possession of a controlled dangerous substance or related paraphernalia or a pupil reasonably believed to be involved or implicated in distribution activities regarding controlled dangerous substances.
4. The Principal or designee, in response to every report, must arrange for an immediate medical examination of the pupil for the purposes of providing appropriate health care for the pupil and for determining whether the pupil is under the influence of alcohol, or other drugs, other than anabolic steroids. The medical examination shall be performed by a physician licensed to practice medicine or osteopathy that is selected by the parent(s) or legal guardian(s). If the parent's or legal guardian's physician licensed to practice medicine or osteopathy is not immediately available, the medical examination shall be conducted by the school physician. If neither the parent's or legal guardian's physician nor the school physician is immediately available, the pupil shall be taken to the emergency

room of the nearest hospital for examination. The pupil shall be accompanied by the pupil's parent(s) or legal guardian(s) if available and by a member of the school staff appointed by the Principal. Parental or legal guardian permission is not required for the school's physician or emergency room examination. The parent(s) or legal guardian(s) may, but is not required to, accompany the pupil to the school physician and/or emergency room. The Principal and/or designee will supervise the pupil while the student is waiting for the parent(s) or legal guardian(s) to take the pupil to the physician selected by the parent, or waiting for and receiving the examination by the school physician or in the emergency room. An examination conducted by a physician selected by the parent(s) or legal guardian(s) shall be at the expense of the parent and shall not be at the expense of the school district. An examination conducted by the school physician or by a physician at the emergency room of the nearest hospital shall be at the expense of the school district.

5. The school district, in cooperation with the medical professional licensed to practice medicine or osteopathy will establish the minimum requirements to be used for these medical examinations conducted in accordance with N.J.A.C. 6A:16-4.3 et seq. The minimum requirements for the examination will be periodically reviewed and updated as needed. Any substance screening conducted by the school nurse and/or other staff is not a substitute for the required medical examination required in N.J.S.A. 18A:40A-12.
6. A written report of the examination of the pupil shall be furnished by the examining physician to the pupil's parent(s) or legal guardian(s), the Principal, and to the Superintendent within twenty-four hours of the referral of the pupil for suspected drug or alcohol use. The findings of the report shall verify whether the pupil's alcohol or other drug use interferes with his or her physical and mental ability to perform in school.
7. When the medical examination is performed by a physician other than the school physician or at the emergency room of the nearest hospital, the parent is required to verify within twenty-four hours of the notification that the pupil is suspected of alcohol or other drug use that the medical examination in accordance with this Policy was performed. The verification shall include, at a minimum, the printed name, address and phone number, date and time of the medical examination, signature of the examining physician and the date by which the written report of the examination will be provided.
8. If the written report of the examination is not submitted to the parent, Principal or Superintendent within twenty-four hours of the referral of

the pupil, the pupil will be allowed to return to school until such time as a positive determination of alcohol or other drug use is received from the physician as per N.J.A.C. 6A:16-4.3(a)8.

9. If the written report of the medical examination verifies that alcohol or other drugs do not interfere with the pupil's physical and mental ability to perform in school, the pupil will be immediately returned to school.
10. If there is a positive determination from the medical examination, indicating the pupil's alcohol or other drug use interferes with his or her physical or mental ability to perform in school the pupil will be returned to the parent's care as soon as possible. Attendance at school will not resume until a written report has been submitted to the parent(s) or legal guardian(s), Principal and Superintendent from the physician who has examined the pupil to determine whether alcohol or other drug use interferes with his or her physical or mental ability to perform in school. The report must verify the pupil's alcohol or other drug use no longer interferes with the pupil's physical and mental ability to perform in school. Removal of a pupil with a disability shall be made in accordance with N.J.A.C. 6A:14.
11. Refusal or failure by a parent/legal guardian to comply with the provisions of N.J.S.A. 18A:40A-12 and N.J.A.C. 6A:16-4.3 shall be treated as a policy violation of the Compulsory Education Act pursuant to N.J.S.A. 18A:38-25 and 18A:38-31, and child neglect laws pursuant to N.J.S.A. 9:6-1 et seq., and N.J.A.C. 6A:16-11. Refusal or failure of a pupil to comply with N.J.S.A. 18A:40A-12 and N.J.A.C. 6A:16-4.3 shall be treated by the school district as a policy violation and handled in accordance with N.J.A.C. 6A:16-4.1(c)2.
12. While the pupil is home because of the medical examination or after the pupil returns to school, an individual who holds the Educational Services Certificate with the substance awareness coordinator endorsement issued by the New Jersey State Board of Examiners or an individual who holds either the school nurse, school nurse/non-instructional, school psychologist, school counselor, school social worker or student personnel services endorsement on the Educational Services Certificate and is trained to assess alcohol and other drug abuse shall:
 - A. Conduct an alcohol and other drug assessment of the pupil and a reasonable investigation of the situation, which may include interviews with the pupil's teachers and parents and consultation with experts in pupil alcohol or other drug abuse as may be appropriate and necessary, for the purpose of making a preliminary determination of the pupil's need for educational

programs, supportive services or treatment which extend beyond the general school program by virtue of the use of alcohol or other drugs by the pupil. The findings of the assessment alone shall not prevent a pupil from attending school. If treatment is recommended then the pupil must comply with treatment recommendation in order to remain in school; and

- B. Cooperate with community agencies as defined in N.J.A.C. 6A:16-4.1(b) and juvenile justice officials in providing evaluation, referral and continuity of care for substance abuse treatment.
13. While the pupil is at home because of the medical examination or after the pupil returns to school, the Principal or Superintendent may recommend or require alcohol and other drug assessment of the pupil or evaluation by appropriately certified or licensed professionals to make a positive determination of a pupil's need for programs and services which extend beyond the general school program, as necessary. For purposes of this policy, "smoking" means the burning of a lighted cigar, cigarette, pipe or any other matter or substance that contains tobacco and the use of smokeless tobacco and snuff.

For the purposes of this policy, "school grounds" means and includes land, portions of land, structures, buildings, and vehicles when used for the provision of academic or extracurricular programs by the district or community provider and structures that support these buildings, including, but not limited to administrative buildings, kitchens, maintenance shops, and garages. Notice that smoking is prohibited on school grounds as defined above will be posted at each public entrance in accordance with law. The Principal of each school building is authorized to report violations, in accordance with law, to the Board of Health. Failure to report violations may subject the Principal to fines in accordance with N.J.S.A. 26:3D-20. STATE OF NEW JERSEY DRUNK DRIVING LAWS & PENALTIES

The following information was obtained from the NJ Office of the Attorney General Division of Highway Traffic Safety (visit www.njsaferoads.com for more information)

Consequences of underage drinking and driving.

In New Jersey, you must be at least 21 years of age to purchase, possess or consume alcoholic beverages. Underage drinking is illegal and can have severe consequences for young people who drink and for adults who provide alcoholic beverages to those under 21.

If you are under 21 and you buy or drink alcohol in a place licensed to sell alcohol beverage, you may be fined \$500 and lose your license for 6 months. If you do not have a driver's license, the suspension starts when you are first eligible to receive a license. You may also be required to participate in an alcohol education or treatment program.

If you are under 21 and drive with any detectable amount of alcohol in your system (.01 BAC or above), you will be subjected to the following penalties (1) Loss or postponement of driving privileges for 30 to 90 days, (2) 15 to 30 days of community service, and (3) Successful completion of the program requirements of an Intoxicated Driver Resource Center or an alcohol education and highway safety program.

The Law

Definition of Impairment In New Jersey, a person is guilty of drunk driving if he/she operates a motor vehicle with a Blood Alcohol Concentration (BAC) of 0.08 percent or greater. BAC refers to the amount of alcohol in your blood. Although the law refers to a 0.08 percent BAC, you can be convicted of driving while under the influence of intoxicating liquor even when your BAC is below 0.08 percent. Consuming even small amounts of alcohol dulls the senses, decreases reaction time, and hampers judgment, vision and alertness. If you consume any amount of alcohol and your driving is affected, you can be convicted of drunk driving. It is also a violation for a person to operate a motor vehicle under the influence of a narcoatic, hallucinogenic, or habit producing drug. You can also be convicted for allowing another person to operate a motor vehicle when that person does so in violation of the driving under the influence (DUI) law. What follows is a summary of the penalties that result when a person is convicted of violating New Jersey's DUI Law.

The Penalties

P.L. 2003, CHAPTER 314, created two categories were created for first time offenders based on BAC levels. Parameters for the two categories and corresponding penalties are as follows:

 - Receive a 3 months license suspension*
 - Spend a minimum of six hours a day for two consecutive days in an Intoxicated Driver Resource Center
 - Pay an automobile insurance surcharge of \$1,000 a year for 3 years

Registration Revocation/Ignition Interlock

In addition to the penalties listed, judges may order the installation of an ignition interlock device or the revocation of vehicle registration (Public Law 2000, Chapter 83). The ignition interlock device, which measures the driver's blood alcohol level, may be required for up to three years following license restoration after a DUI conviction.

Driving with A Minor

A parent or guardian who is convicted under the DUI law and has a passenger in the motor vehicle 17 years of age or younger, is also guilty of a disorderly persons offense.
